8. It was noted that the Vice President and Secretary Rusk were most grateful for CIA keeping them informed while abroad.

9. According to the DDP, the DCI stressed again that CIA stands for Central Intelligence "Association." DCI wants components to associate more. Des makes point that perhaps the DDP should ask more questions about DDI. He particularly thinks that it might be wise to know more about OSI and ORR methods of reconstructing the "elephant," that is, research techniques and conclusions drawn. In short, how final estimates are evolved.
